Objavljeno od n1kky - 18.06.2010. 21:27

Hello!

I have tried looking for topo (SKICA PENJALIŠTA I POPIS SMJEROVA) for DWS around Split at marulianus.hr, but the images are missing from the site.

Like here (only first two images could be seen):

http://www.marulianus.hr/index.php?option=com_content&task=view&id=181

and here (no images could be seen):

I will be in Split in 3 days and I would really like to try DWS at Sustipan or Ciovo. If you have the topos, would you be so kind to send them to me at nikolay.public@gmail.com

Hvala!! :)

Nikolay
